THE eystem of furnishing Goods upon Weekly or I Mouthly Payments is peculiar to my ostabilishment. The system has worked so earleft that it is in constant practice at my Emporium on Broad street.

The arstem Contemplates Two Things First—The accommodation of persons baying a stated limited (scome, and also those who desire to use their money and pay instalments from its earn-ings. They can have the use of my property notif-by weekly or, monthly payments they make it their nature.

The contract of the goods or their attempted sale, would subject the person doing it to heavy penatties.

These two features secure to me safety, and to my customers cheapness of price. They do not have to pay for losses incurred through others.
